

Overview

Description	Amyloid- β (A β) senile plaques and neurofibrillary tangles of tau are generally recognized as the culprits of Alzheimer's disease (AD) and related dementia.
Isotype	IgG
Species Reactivity	Homo sapiens (Human)
Clonality	Monoclonal
Conjugation	Unconjugated
Immunogen	Human Amyloid- β 13-26
Purification	Affinity-chromatography

Specifications

Tested applications	ELISA
Dilution Range	ELISA:1:5000-1:10000
Form	Liquid
Activity	Not tested
Buffer	PBS, pH7.5

Preparation and storage

Shipping	In general, proteins are shipped out with blue ice unless customers require otherwise.
Stability &Storage	Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8 °C for one week . Store at -20 to -80 °C for twelve months from the date of receipt. Protected from prolonged exposure to light.

Note

For research use only .Not for use in clinical diagnostic procedures.
